Country House in the Luberon

This is not a "run of the mill" house for sale! It represents an amazing environment on offer for you, full of history and ambiance both classical and oriental, Art Nouveau and baroque, an excentric assortment of early 20th century styles.

Situated on 5 hectares of meadow and forest, the 600m2 mansion offers large reception rooms, salons and a dining room plus eight bedrooms with bathrooms.

The old cellar and a 16th century vaulted annex adjoin the property and could be the subject of a renovation. The caretaker's house at the entrance to the estate would provide very comfortable lodgings for members of staff.

The pool, in an elegant baroque form of 30 meters by 7 meters, is flanked by an octagonal summerhouse of wrought iron, perfect for dining on warm evenings.

A park full of trees centuries old authenticates the unique nature of this site.

This is a family home which could equally well be transformed into a high class hotel.
